Help keep our girls in school

Please donate much-needed health care items such as tampons, sanitary pads, lotion, deodorant, toothpaste, tooth brushes, etc.

All items will be distributed to children in need by United Way agency partner Youth Services Network.

› Did you know that food stamps (currently known as SNAP) can be used for food only?

Items such as tampons, sanitary pads, deodorant and other toiletries cannot be purchased using SNAP. Families living in poverty must use other funds for these items. As a result, children are missing school because of a lack of adequate health care products.
